Accelerating the Impact-Driven Future of Business

Kim Johnson Roberts, Chief Development Officer, Halcyon
k.roberts@halcyonhouse.org
Introduction to Halcyon

Halcyon accelerates the impact-driven future of business.

Our three big bets:

1. In the long run, impact-driven businesses will outperform their traditional counterparts.

2. Impact-driven business represents a powerful opportunity to drive equity and inclusivity in the workplace and in society.

3. Impact-driven business is the most viable route to solving the problems of the 21st century.

Halcyon shows up in that critical moment where viability is proven and scalability is achievable, but where barriers could limit a business’s ability to last – even if that business has the potential to solve a massive global problem.
